SUPPLEMENT TO
REPORT NO.

50X1-HUM

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The Skoda works at Novy Bor near Ceska Lipa (Böhmisch Leipa) are the former Chromotechna-Rachmann II works which were taken over by Skoda and nationalized on 1 January 1948. They were taken over directly by the War Ministry (MO) on 1 May 1949. There is a liaison staff of 12 MMC officers in the factory, divided into the two sections, ZTU I and ZTU II. The plant employs 520 people, including office workers.

50X1-HUM

2. This factory is equipped with the most modern [] machinery for the manufacture of precision instruments. Included among the items produced by the factory are the following:

- a. Fuze caps for 7 to 15 mm shells - 300 per day
b. Metal cases, 10 - 12 mm in diameter, for anti-personnel mines - 500 per day
These cases are made from a thin metal called "Dekapir" (probably "pickled tin")

- c. Steel screws, M 8 - 12 mm.
d. Screw cutting machines.

3. Among the personnel at the Novy Bor Skoda works are the following:

- a. Ing. Sochor, formerly of Mlada Boleslav, is the head of the plant.
- b. Vaclav Zivny is the works foreman.
- c. Frantisek Doubrava, a Communist, is head of the works council.
- d. Severa, a representative of STB, is head of the factory militia.

50X1-HUM

4. [redacted] workers have recently been brought from Adamov to Novy Bor for a three-month's training course. The factory at Novy Bor reportedly will be closed in view of the labor shortage in that area, and its equipment will be transferred to Adamov.
